

# Finance Manager

As Finance Manager, you will be the driving force behind the development of our finance team in the Netherlands. You will inspire and motivate your team members to reach their full potential and foster a culture of collaboration and innovation. You work closely with the Executive Board and the Team Leader Accounting to take the Accounting and Project Control teams (for which you are responsible) to the next level. You will also play a crucial role in the further development, simplification and automation of our financial processes, using the latest technologies such as AI and RPA (Robot Process Automation).

Your responsibilities:

- Responsible for the coordination, quality, analysis and explanation of the monthly closing (A-Z);
- Ensuring the coordination, quality, analysis and explanation of budgeting and forecasting;
- Responsible for the activities and results of the Project Control team and contribute to the control and risk management of projects;
- Coordinating the financial statements and audit, provide position papers and ensure their quality;
- Support the governance and reporting of our holding company and other entities;
- Ensuring accurate cash flow forecasting and financing and manage transfer pricing and VAT;
- Finally, you take the lead on special (group) projects that are complex and cross-functional, working with different OpCos, BUs and disciplines.
